

## **Cellular Telephone Policy**

---

In order to provide an environment that meets the needs of all of our patrons, in the limited space we have to offer, the following cellular phone rules have been instituted:

- Cell phone users must be respectful of others using the library.
- Cell phones should be set on silent or vibrate while in the library.
- Conversations on cell phones should be conducted in the lobby or the hallway outside the Library. While signed on at a public computer, patrons using a cell phone to receive technical support should speak as quietly as possible.
- If you receive a call while in the Library, tell the party to hold while you take the phone into the hallway or lobby.
- Library staff will interrupt cell phone users who are disturbing others and direct them to more appropriate areas.
